SUBJECT INDEX

Acclimation,
and metabolic rate in *Drosophila*, 213
and myosin ATPase and thermostability in carp muscle, 375
cDNA for myosin heavy chains in carp muscle, 375
cold and changes in skeletal muscle in rats, 95
effect on swimming performance in fish, 391
effect on thermal preference area of *Macrobrachium*, 309
to heat in rats, 275
Acclimatization,
seasonal and BAT in pygmy shrews, 127
seasonal and body temperature in women, 357
Acomys russatus, 219
Activity pattern,
and ambient temperature in desert bees, 453
and ambient temperature in high altitude anurans, 467
Age,
and response to heat and humidity stress in turkeys, 43
Ambient temperature,
and activity patterns of desert bees, 453
and activity patterns of high altitude anurans, 467
and daily rhythms of body temperature in four species of small mammal, 281
and heat loss in horses, 177
and oxygen consumption of montane worm caterpillars, 325
and photoperiod in determining maturity age in *Nereis*, 489
and response of antioxidant defences in catfish gills, 151
and thermal insulance in horses, 169
effect on cerebral blood flow and ECG in carp, 227
effect on heart rate in carp, 227
effect on spontaneous motor activity and body temperature in rats, 59
short-term changes in and thermoregulation in horses, 187
Amphibia, 467
Annelids, 489
Anthophora plumipes, 453
Austropotamobius pallipes, 419

Behavioural thermoregulation,
in high elevation living anurans, 467
in response to hypoxia in rats, 315
lack of evidence for in montane worm caterpillars, 325
Birds, 43, 223, 253, 265
Blood pressure,
response to handling and acclimation in heat stressed rats, 275
Body temperature,
and clothing in women, 357
and limb movements in man, 351
and spontaneous motor activity in male and female rats, 59
behavioural in rats in response to hypoxia, 315
daily rhythms in of four species of marsupials, 301
daily rhythms of in *Acomys*, photoperiod and melatonin, 219
daily rhythms of in *Rattus*, *Mesocricetus*, *Pachyuromys* and *Tupaia*, 281
heat acclimation and response to handling and heat stress in rats, 275
in bees in flight, 453
in cattle, 285
in flying bats, 109
in high elevation anurans, 467
in horses, 187
in pigs in response to acute thermal exposure, 87
in silver fox, effect of handling and restraint, 79
in turkeys in response to heat and humidity stress, 43
in women during exercise, influence of clothing and menstrual cycle, 137, 343
of four species of marsupials, 301
warm-up of in bees, 453
Bos taurus, 285
Brain,
effect of temperature on blood flow in carp, 227
hippocampal slices firing of in response to temperature, 201
Brown adipose tissue,
and seasonal acclimatization in pygmy shrews, 127.

Cavia porcellus, 31, 201
cDNA clones,
encoding myosin iosforms from carp muscle, and acclimation temperature, 375
Chrysemys picta, 53
Citellus dauricus, 195
Clothing,
effect on lower critical temperature in women, 357
modelling the effect on thermoregulatory responses in humans, 331
resistance, body temperature and exercise in women, 137, 343
Coat,
thermal insulance of in horses, 169, 187
thermal resistance in barn owls, 253, 265

Coelenterate, 11
Cold adaptation,
  and life history strategies in terrestrial invertebrates, 429
  as expressed in heart structure and function in antarctic fish, 409
  for swimming activity in *Notothenia* and trout, 403
Cold exposure,
  and finger-tip temperatures in man, 295
  and survival in painted turtles, 53
  finger-tip temperature and blood flow, 159
  thermoregulatory and endocrine response to in pigs, 87
Crustacean, 309, 419
Cynomys leucurus, 21
Cynomys ludovicianus, 21
Cyprinus carpio, 227, 375

Dehydration,
  modelling the effect on thermoregulatory responses in humans, 331
Developmental temperature,
  and morphometric traits in *Drosophila*, 441
  effect on metabolism and escape behaviour in *Drosophila*, 213
Didelphis marsupialis, 301
Didelphis virginiana, 301
Drosophila melanogaster, 1, 213, 441

Equus equus, 169, 177, 187
Estrous cycle,
  effect of stage on spontaneous motor activity and body temperature in rats, 59
Evaporative heat loss,
  dependency on ambient temperature in horses, 177
Exercise,
  and thermoregulation in women and menstrual cycle phase, 137
  modelling the effect on thermoregulation in humans, 331

Fat,
  adipocyte size and seasonal acclimatization in pygmy shrews, 127
  winter body fat in white-tailed and black-tailed prairie dogs, 21
Fatty acid composition,
  and growth temperature in entopathogenic nematodes, 237, 245
Fever,
  LPS-induced in silver fox, 79
Fish, 151, 227, 375, 391, 403, 409
Food consumption,
  comparison of in winter in white-tailed and black-tailed prairie dogs, 21
Fractal dimension analysis,
  of thermoregulatory responses in cattle, 285
Free radicals,
  and raised temperature effects on catfish gill, 151
Galleria mellonella, 237, 245
Glutathione peroxidase,
  activity in catfish gill after temperature treatment, 151
Glyptonotus antarcticus, 419
Goniopora djiboutiensis, 11
Growth temperature,
  effect on phospholipid and fatty acids in *Steinernema*, 237

Heart,
  excitability of in response to cold exposure in rat and ground squirrel, 195
  output at low temperature in *Notothenia* and trout, 403
Heart rate,
  and ambient temperature in carp, 227
  and heat stress in turkeys, 43
  and low temperature exposure in *Notothenia* and trout, 403
  cold adaptation of in antarctic fish, 409
  effect of handling and heat stress on in acclimated rats, 275
  in response to hypoxia in rats, 315
Heat loss,
  and ambient temperature in horses, 177
  and wind speed and wetting in the barn owl, 253, 265
Heat production,
  during embryogenesis in the rhea, 223
  effects of pressure on in guinea pigs, 31
  in prairie dogs, 21
  in shrews, 127
Heat shock proteins,
  a possible role in protection of heart from ischemic damage, 69
  polymorphism of in entopathogenic nematodes, 143
  production in corals, 11
Heat stress,
  a factor in the exploitation of necrotic fruit by insects, 1
  and potassium homeostasis in swamp buffalo, 207
  evidence for behavioural avoidance of in mopane worm caterpillars, 325
  in reef corals, 11
  modelling the effect of on thermoregulatory responses in humans, 331
  physiological responses to in turkeys, effect of age and RH, 43
  thermoregulatory and endocrine response to in pigs, 87
Heat tolerance,
  comparison of in desert and non-desert insects, 453
Heat transfer,
  comparison of in avian coats, 265
  model for sensible heat loss and thermal resistance in barn owl, 253, 265
  through plumage of in barn owl, 265

Heteropneustes fossilis, 151
Hibernation,
and survival of in overwintering painted turtles, 53
comparison of, in white-tailed and black-tailed prairie dogs, 21
Hippocampal slices,
effect of temperature on firing of in guinea pig, 201
Hormones,
changes in blood levels following acute thermal exposure in pigs, 87
Human, 137, 159, 295, 331, 343, 351, 357
Humidity,
physiological response to in turkeys, 43
Hyperthermia,
effect on cerebral blood flow and ECG in carp, 227
tissue response to in geranium stem, and NMR imaging, 117
Hypothermia,
comparison of resistance to in ground squirrel and rat, 195
effect on cerebral blood flow and ECG in carp, 227

Ice,
nucleation and survival in painted turtles, 53
Icefish, 409
Idotea rescata, 419
Imbrasia belina, 325
Indomethacin,
protects against LPS-induced fever in silver fox, 79
Infrared thermal imaging,
determination of wing temperature in bats, 109
Insect, 1, 213, 237, 245, 325, 441, 453
Isoodon macrourus, 301

Life history startegies,
of antarctic terrestrial invertebrates, 429
of sea-turtles, 479
Lower critical temperature,
in women, dependency of clothing type, 357

Macrobrachium tenellum, 309
Mammal, 21, 31, 59, 79, 87, 95, 109, 127, 137, 159, 169, 177, 187, 195, 201, 207, 219, 275, 281, 285, 295, 315, 331, 343, 351, 357
Marsupial, 301
Melatonin,
administration and daily rhythms of body temperature in *Acomys*, 219
Meleagris gallopavo, 43
Mesocricetus auratus, 281
Metabolic rate,
and clothing type in women, 357
as a function of temperature and pressure in guinea pigs, 31
in development in the rhea, 223
in three species of crustaceans, effect of temperature on, 419
relationship with BAT mass, 127
scope for, in high elevation anurans, 467
Model,
for human thermoregulation, 331
for life histories in antarctic terrestrial invertebrates, 429
Molecular motors,
in fish muscle, desin of with respect to temperature, 367
Morphometric traits,
dependency on developmental temperature in *Drosophila*, 441
Muscle,
blood flow and low temperature in *Notothenia* and trout, 403
control of blood flow of at low temperature in *Notothenia, 403.*
structural and metabolic changes in as a result of cold acclimation in rats, 95
Myoglobin,
and cold adaptation in icefish, 409

Nematode, 143, 237, 245
Neonatal environment,
and response to acute thermal exposure in pigs, 87
Nereis(Neanthes) virens, 489
NMR imaging,
use in determination of tissue damage by hyperthermia in geranium stem, 117
Non-shivering thermogenesis,
in prairie dogs, 21
in pygmy shrews, 127
Notothenia coriiceps, 403

Obituary, John Noel Rowland Grainger, 365

Pachyuromys duprasi, 281
Pelargonium xhortorum, 117
Phospholipid,
composition and growth temperature in entopathogenic nematodes, 237, 245
Photoperiod,
and daily rhythms of body temperature in *Acomys*, 219
effect on body temperature in male and female rats, 59
Plant, 117
Plumage,
and heat loss in the barn owl, 253, 265
thermal characteristics of in barn owl, 265
Protein synthesis,
rates of and temperature in three crustacean species, 419

Rattus sp., 59, 95, 195, 275, 281, 315
Reef coral,
heat stress and heat shock protein production, 11
Reptile, 53, 479

Respiratory rate,
in turkeys in response to heat and humidity stress, 43
Rhea americana, 223
Rousettus aegyptiacus, 109
RQ,
changes in during egg development in the rhea, 223

Sex,
and contribution of spontaneous motor activity to body temperature in rats, 59
Skin temperature,
and limb movements in man, 351
finger-tip in response to cooling, 295
in exercising women. 137
Soil type,
and suitability for hibernaculae for painted turtles, 53
Solar heating,
and microclimate of necrotic fruit, 1
Sorex minutus, 127
Steinernema carpocapsae, 245
Steinernema feltiae, 245
Steinernema riobravis, 237, 245
Suis suis, 87
Supercooling,
and cold exposure in painted turtles, 53
Superoxide dismutase,
activity during exposure to raised temperature in catfish gill, 151
Sweating rate,
clothing, exercise in women, 137
response to active and passive limb movements in man, 351
Swimming speed,
effect of acclimation temperature on in a variety of fish species, 391

Telemetry,
in rats to differentiate between acclimation and handling effects, 275
measurement of temperature in exercising women, 343
Temperature dependent sex determination,
in sea turtles and global warming, 479
Thermal insulance,
of peripheral tissues and coat in horses, 169
Thermal preference,
and hypoxia in rats, 315
area of in *Macrobrachium*, 309
Thermal properties,
of mixtures of gases, 31
Thermoregulation,
and acclimation in rats, 275
and exercise and menstrual cycle in women, 137, 343
and fever in silver fox, 79
and wing temperature in flying bats, 109
behavioural in high altitude anurans, 467
behavioural in rats in response to hypoxia, 315
effects of pressure on in guinea pigs, 31
in horses, 169, 177, 187
Thermal resistance,
and wind speed and wetting in the barn owl, 253, 265
Thermal stress,
response to in cattle, a fractal dimension analysis, 285
Thermostability,
of myosin iosforms, dependency on acclimation temperature, 375
Torpor,
cycles of in prairie dogs, 21
Trichosurus vulpecula, 301
Tupaia belangeri, 281
Tyto alba, 253, 265

Vulpes vulpes, 79

Wind,
effect on thermoregulation in barn owls, 253, 265

Xylocopa pubescens, 453
Xylocopa sulcatipes, 453

Zooxanthellae,
heat sensitivity of in reef corals, 11

TYPESET IN GREAT BRITAIN BY BPC DIGITAL TECHSET LTD, EXETER. PRINTED BY REDWOOD BOOKS, TROWBRIDGE, WILTS
